I'm grateful for the Collaboratory’s kindness and enthusiasm in supporting the mission of Adalynn’s Gift. Their ability to etch a plain glass candle holder, turning it into something unique, enhances the memory boxes that I put together. The Collaboratory’s personal touch is apparent on each and I’m certain the families that receive them are equally as appreciative of their time and effort.

Adalynn’s Gift

In today’s world, “branding” is important to even the work of municipal government. How does a local government reach its citizens with new information on wayfinding, new open spaces and parks and 325th anniversary celebrations? The answer is the Wallingford Collaboratory which levels the playing field and allows bureaucrats with minimal public relations experience to access the all-important graphic arts which speak to everyone on a visual level. Thank goodness for the Wallingford Collaboratory!

–Carol Szymanski
Town of Colchester

As a small business owner and resident of Wallingford, I greatly appreciate all the resources the Collaboratory has given me access to, especially the staff who have always been so happy to assist with projects. From printing services to Cricut machines, the library has so many tools to help me grow and promote my business. What’s more, the Collaboratory has become a fun space for my family to explore our creativity together and that is more valuable than anything to me.
